

Table of Contents, Volume 52, 1999

January 1999

- 2 **Livestock-guarding dogs in Norway: Part I. Interactions** by Inger Hansen and Morten Bakken
- 7 **Use of livestock and range management practices in Utah** by D. Layne Coppock and Alan H. Birkenfeld
- 19 **Animal and plant response on renovated pastures in western Canada** by Duane H. McCartney, John Waddington, and Leonard P. Lefkovitch
- 27 **A chamber design for measuring net CO₂ exchange on rangeland** by Ray Angell and Tony Svejcar
- 32 **Aerial films and solar angles: Influences on silver sagebrush inventory** by Livio Fent
- 39 **Sheep preference for leafy spurge from Idaho and North Dakota** by Scott L. Kronberg and John W. Walker
- 45 **Spatial use of warm-season food plots by white-tailed deer** by Jeffrey P. Bonner and Timothy E. Fulbright
- 51 **A qualitative spatial model of hardwood rangeland state-and-transition dynamics** by Richard E. Plant, Marc P. Vayssières, Steven E. Greco, Melvin R. George, and Theodore E. Adams
- 60 **Effects of management on species dynamics of Canadian aspen parkland pastures** by John Waddington, Duane H. McCartney, and Leonard P. Lefkovitch
- 68 **Enhancing intermediate wheatgrass establishment in spotted knapweed infested rangeland** by Roger L. Sheley, James S. Jacobs, and Rajendra P. Velagala
- 75 **Yield and feeding of prairie grasses in east-central Alberta** by Abdullatif Suleiman, Erasmus K. Okine, Laksiri A. Goonewardene, Phyllis A. Day, Barry Yaremcio, and Guillermo Recinos-Diaz
- 83 **Predicting variable-temperature response of non-dormant seeds from constant-temperature germination data** by Stuart P. Hardegree, Steven S. Van Vactor, Frederick B. Pierson, and Debra E. Palmquist
- 93 **Central Nevada riparian areas: Physical and chemical properties of meadow soils** by Jeanne C. Chambers, Robert R. Blank, Desiderio C. Zamudio, and Robin J. Tausch
- 99 **Book Reviews**

March 1999

- 102 **President's Address: On Management** by E. Lamar Smith
- 104 **Opportunity costs related to feral horses: A Wyoming case study** by Chris T. Bastian, Larry W. Van Tassell, Ann C. Cotton, and Michael A. Smith
- 113 **Economics of maintaining cow condition on fescue prairie in winter** by Brian S. Freeze, Walter D. Willms, and Lyle Rode

- 120 **Stocker cattle response to grazing management in tallgrass prairie** by F. Ted McCollum III, Robert L. Gillen, Brock R. Karges, and Mark E. Hodges
- 127 **Soil moisture influences low larkspur and death camas alkaloid levels** by Walter Majak, A.L. Van Ryswyk, and John W. Hall
- 132 **Nutritional attributes of understory plants known as components of deer diets** by M.P. González-Hernández, and F.J. Silva-Pando
- 139 **Lone star tick abundance, fire, and bison grazing in tallgrass prairie** by Jack F. Cully, Jr.
- 145 **Yield and quality of warm-season grasses in central Texas** by M.A. Sanderson, P. Voigt, and R.M. Jones
- 151 **Viewpoint: Implications of spatial variability for estimating forage use** by Edward W. Bork and Scott J. Werner
- 157 **Viewpoint: The range utilization concept, allocation arrays, and range management science** by David L. Sarnecchia
- 161 **Intake of ashe juniper and live oak by angora goats** by R.R. Riddle, C.A. Taylor, Jr., J.E. Huston, and M.M. Kothmann
- 166 **Seasonal cattle management in 3 to 5 year old bitterbrush stands** by Dave Ganskopp, Tony Svejcar, Fred Taylor, Jerry Farstvedt, and Kara Paintner
- 174 **Plant response to defoliation in a subalpine green fescue community** by Steven H. Sharrow and David E. Kuntz
- 181 **Factors influencing crown placement of oats (*Avena sativa* L.)** by R.E. Ries
- 187 **Persistence of Idaho fescue on degraded sagebrush-steppe** by Jay R. Goodwin, Paul S. Doescher, Lee E. Eddleman, and Donald B. Zobel
- 199 **Book Reviews**

May 1999

- 202 **Diet selection of mountain lions in southeastern Arizona** by Stan C. Cunningham, Carl R. Gustavson, and Warren B. Ballard
- 208 **Is supplementation justified to compensate pastoral calves for milk restriction?** by D. Layne Coppock and Sandro Sovani
- 218 **Stream channel and vegetation responses to late spring cattle grazing** by Warren P. Clary
- 228 **Late-summer forage on prairie sandreed dominated rangeland after spring defoliation** by Patrick E. Reece, Thomas L. Holman, and Kenneth J. Moore
- 235 **Season-long grazing of seeded cool-season pastures in the Northern Great Plains** by J.F. Karn, R.E. Ries, and L. Hofmann

May 1999

- 202 **Diet selection of mountain lions in southeastern Arizona** by Stan C. Cunningham, Carl R. Gustavson, and Warren B. Ballard
- 208 **Is supplementation justified to compensate pastoral calves for milk restriction?** by D. Layne Coppock and Sandro Sovani
- 218 **Stream channel and vegetation responses to late spring cattle grazing** by Warren P. Clary
- 228 **Late-summer forage on prairie sandreed dominated rangeland after spring defoliation** by Patrick E. Reece, Thomas L. Holman, and Kenneth J. Moore
- 235 **Season-long grazing of seeded cool-season pastures in the Northern Great Plains** by J.F. Karn, R.E. Ries, and L. Hofmann

- 241 Caatinga vegetation dynamics under various grazing intensities by steers in the semi-arid Northeast, Brazil by Severino G. De Albuquerque
 - 249 Rangeland cover component quantification using broad (TM) and narrow-band (1.4 NM) spectrometry by Edward W. Bork, Neil E. West, Kevin P. Price, and John W. Walker
 - 258 Defoliation time and intensity of wall barley in the Mediterranean rangeland by Moh'd Khair J. El-Shatnawi, Hani Z. Ghosher, Hail K. Shannag and Khalil I. Ereifej
 - 263 Plant response to defoliation and resource supplementation in the Pryor Mountains by Jace T. Fahnestock and James K. Detling
 - 270 Imbibition temperature affects winterfat (*Eurotia lanata* (Pursh) Moq.) seed hydration and cold-hardiness response by Yuguang Bai, D. Terrance Booth, and J.T. Romo
 - 275 Grazing steer fecal output dynamics on south Texas shrubland by Jerry W. Stuth and Robert K. Lyons
 - 283 Cattle use affects forage quality in a montane riparian ecosystem by Rebecca L. Phillips, M.J. Trlica, Wayne C. Leininger, and Warren P. Clary
 - 290 Evidence of cell deterioration in winterfat seeds during refrigerated storage by D. Terrance Booth, Rochman Agustrina, and Rollin H. Abernethy
 - 297 Book Reviews
- July 1999
- 302 Viewpoint: Benefits and impacts of wildlife water developments by Steven S. Rosenstock, Warren B. Ballard, and James C. Devos, Jr.
 - 312 Livestock-guarding dogs in Norway Part II: Different working regimes by Inger Hansen and Martin E. Smith
 - 317 First limiting nutrient for summer calving cows grazing autumn-winter range by Gregory P. Lardy, Don C. Adams, Terry J. Klopfenstein, and Richard T. Clark
 - 327 Group size effects on grazing behaviour and efficiency in sheep by Agostino Sevi, Donato Casamassima, and Antonio Muscio
 - 332 Cattle grazing and avian communities of the St. Lawrence River Islands by Luc Bélanger and Martin Picard
 - 339 Clipping effects on growth dynamics of Japanese brome by M.R. Haferkamp and M.G. Karl
 - 346 Response of white-tailed deer foods to discing in a semiarid habitat by Timothy E. Fulbright
 - 351 Reclaiming Russian knapweed infested rangeland by Lani J. Benz, George Beck, Thomas D. Whitson, and David W. Koch
 - 357 Canopy analysis as a technique to characterize defoliation intensity on Sandhills range by M.S. Miller-Goodman, L.E. Moser, S.S. Waller, J.E. Brummer, and P.E. Reece
 - 363 Sagebrush response to ungulate browsing in Yellowstone by Carl L. Wambolt and Harrie W. Sherwood
 - 370 Botanical composition of cattle and vizcacha diets in central Argentina by Eliana E. Bontti, Roberto M. Boo, Lilia I. Lindström, and Omar R. Elia
 - 378 Consumption of low larkspur (*Delphinium nuttallianum*) by cattle by James A. Pfister and Dale R. Gardner
 - 384 Technical Note: Pericarp removal has little effect on sagebrush seeds by Yuguang Bai, Stuart P. Hardegree, D. Terrance Booth, and Eric E. Roos
 - 387 Responses of winterfat seeds and seedlings to desiccation by J.Q. Hou, J.T. Romo, Y. Bai, and D.T. Booth
 - 394 Book Reviews
- September 1999
- 398 Coyote depredation control: An interface between biology and management by Frederick F. Knowlton, Eric M. Gese, and Michael M. Jaeger
 - 413 Viewpoint: The role of drought in range management by Thomas L. Thurow and Charles A. Taylor, Jr.
 - 420 Land use change effects on breeding bird community composition by Jon C. Boren, David M. Engle, Michael W. Palmer, Ronald E. Masters, and Tania Criner
 - 431 Goats locomotion energy expenditure under range grazing conditions: Seasonal variation by M. Lachica, R. Somlo, F.G. Barroso, J. Boza, and C. Prieto
 - 436 Conditioned aversion to minimize *Ferula communis* intake by orphaned lambs by Serge Y. Landau, Ezra Ben-Moshe, Anat Egber, Alan Shlosberg, Michel Bellaiche, and Avi Perevolotsky
 - 440 Drought and grazing: I. Effects on quantity of forage produced by R.K. Heitschmidt, M.R. Haferkamp, M.G. Karl, and A.L. Hild
 - 447 Early summer grazing effects on defoliation and tiller demography of prairie sandreed by Andrew P. Cullan, Patrick E. Reece, and Walter H. Schacht
 - 454 Bison use of fire-managed remnant prairies by Mario E. Biondini, Allen A. Steuter, and Robert G. Hamilton
 - 462 Livestock response to multispecies and deferred-rotation grazing on forested rangeland by Kenneth C. Olson, Randall D. Wiedmeier, James E. Bowns, and Rex L. Hurst
 - 471 Influence of environmental factors and sheep grazing on an Andean grassland by Peter B. Adler and Juan Manuel Morales
 - 482 Spotted knapweed, forb, and grass response to 2,4-D and N-fertilizer by James S. Jacobs and Roger L. Sheley
 - 489 Prescribed fire effects on biological control of leafy spurge by David P. Fellows and Wesley E. Newton
 - 494 Leaf area, visual obstruction, and standing crop relationships on Sandhills rangeland by Jerry D. Volesky, Walter H. Schacht, and Patrick E. Reece

- 500 **Assessing grazing impacts by remote sensing in hyper-arid environments** by David Saltz, Heike Schmidt, Mary Rowen, Arnon Karnieli, David Ward, and Iris Schmidt
 - 508 **Intake of cattle offered normal and lodged tall fescue swards** by Charles T. Dougherty and Paul L. Cornelius
 - 515 **Deer damage to alfalfa and mixtures with timothy or orchardgrass** by Marvin H. Hall and Robert C. Stout
 - 519 **Diversity of the herbaceous layer in mixed bushveld** by Werner G. Dörgeleh
 - 525 **Western juniper expansion on adjacent disturbed and near-relict sites** by Peter T. Soulé and Paul A. Knapp
 - 534 **Imbibition temperature affects on seedling vigor: In crops and shrubs** by D. Terrance Booth and Yuguang Bai
 - 539 **Total nonstructural carbohydrate trends in Chinese tallow roots** by Warren C. Conway, Loren M. Smith, Ronald E. Sosebee, and James F. Bergan
 - 543 **Book Reviews**
- November 1999
- 546 **Viewpoint: Delineating ecological sites** by Jeffrey A. Creque, Scott D. Bassett, and Neil E. West
 - 550 **Fire history and western juniper encroachment in sagebrush steppe** by Richard F. Miller and Jeffrey A. Rose
 - 560 **Relative costs and feeding strategies associated with winter/spring calving** by Gary J. May, Larry W. Van Tassell, James W. Waggoner, and Michael A. Smith
 - 569 **Economics of redberry juniper control in the Texas Rolling Plains** by Phillip Johnson, Alfonso Gerbolini, Don Ethridge, Carlton Britton, and Darrell Ueckert
 - 575 **Modification of cattle grazing distribution with dehydrated molasses supplement** by Derek W. Bailey and G. Robert Welling
 - 583 **Sequence grazing systems on the southern plains** by Robert L. Gillen, William A. Berg, Chester L. Dewald, and Phillip L. Sims
 - 590 **Heavy stocking and early-season deferment of grazing on Mediterranean-type grassland** by Mario Gutman, Zvi Holzer, Hagit Baram, Imanuel Hoy-Meir, and No'am G. Seligman
 - 600 **Technical Note: Nitrogen and phosphorus in runoff from 2 montane riparian communities** by Carin J. Corley, Gary W. Frasier, M.J. Trlica, Freeman M. Smith, and E.M. Taylor, Jr.
 - 606 **Nutrient dynamics of rangeland burns in Southeastern Arizona** by William E. Emmerich
 - 615 **Nitrogen dynamics in stream and soil waters** by John D. Stednick and A.G. Fernald
 - 621 **Spittlebug and buffelgrass responses to summer fires in Mexico** by Martha Martin-R, Jerry R. Cox, F. Ibarra-F, Diana G. Alston, Roger E. Banner, and John C. Malecheck
 - 626 **Grass defoliation intensity, frequency, and season effects on spotted knapweed invasion** by James S. Jacobs and Roger L. Sheley
 - 633 **Technical Note: Test of observer variability in measuring riparian shrub twig length** by Frederick C. Hall and TimothyMax
 - 637 **Plant responses to pocket-gopher disturbances across pastures and topography** by Joanne M. Carlson and Thomas O. Crist
 - 646 **Intrapopulation genetic variation for seed dormancy in Indian ricegrass** by T.A. Jones and D.C. Nielson
 - 651 **Rangeland and steer responses to grazing in the Southern Plains** by Phillip L. Sims and Robert L. Gillen
 - 661 **Forage quality of 10 Eastern gamagrass [*Tripsacum dactyloides* (L.)L.] genotypes** by James E. Bidlack, Joe E. Vaughan, and C.L. Dewald
 - 666 **Soil carbon and nitrogen changes following root-plowing of rangeland** by W.R. Teague, J.K. Foy, B.T. Cross and S.L. Dowhower
 - 671 **Soil compaction of forest plantations in interior British Columbia** by Maja Krzic, Reg F. Newman, Klaas Broersma, and Arthur A. Bomke
 - 678 **Book Reviews**
